Official Invitation Letter

On behalf of the University of Vaasa and the Technobothnia Laboratories, I am pleased to officially invite the following representatives of the *University of Chemical Technology and Metallurgy (UCTM)*, Bulgaria:

- Plamen Vasilev Vassilev
- Nedko Perchemliev
- Dancho Danalev,
- Miglena Ivanova,
- Teodora Valcheva

These individuals are invited to visit the University of Vaasa and Technobothnia Research Centre during the period of **September 23–27, Y2025**, as part of a planned business trip related to ongoing European innovation and digital infrastructure initiatives and collaboration opportunities with the University of Chemical Technology and Metallurgy (UCTM).

The purpose of the visit includes:

- A working meeting regarding the digital innovation infrastructure and Industry 4.0-related activities.
- Exchange of knowledge and best practices between our institutions.
- A meeting with the organizational and administrative body of our innovation and research hub.
- Discussion on collaboration opportunities with the University of Chemical Technology and Metallurgy (UCTM), in the context of supporting regional SMEs, reverse engineering, and 3D technology-based services.

We are confident that this visit will foster productive exchanges and deepen cooperation between our organizations. Please do not hesitate to contact us should you require additional information or documentation to facilitate visa procedures or travel arrangements.

Sincerely,

Dr. Rayko Toshev
Ph.D. in Industrial Management
